

K-love is very powerful if it was not for them I and many others would still be lost having no guidance in there life. The many people that listen to K-love are entitled to here this music and many more of the services they provide. The world has to many radio stations that have nothing but negative music, and that is sad. If more people had GOD in there life the world would'nt be a bad place. So please take this in too consideration before you make your decision. The music and station has brought me many out of many bad days!
